

The 22nd China Ferro-Alloys International Conference

Invitation Letter

Dear Industry Colleagues,

The 22nd China Ferro-alloys International Conference, hosted by Ferro-Alloys.com, will be held on 20 May to 22 May, 2026 in Beijing city, China. We sincerely invite you jointly explore the development ferroalloys trend in 2026.

Why Attend?

Since 2025, U.S.-initiated tariffs and trade policies have disrupted global industrial chains and economic recovery. Against the backdrop of reshaped global trade and supply chain structures, heightened uncertainty in the world economic outlook poses severe challenges to the global economy. Concurrently, the operational logic of commodity markets is undergoing adjustments. By sector: The steel metallurgy sector has seen a rapid slowdown in growth, driven by structural adjustments in steel consumption. This is propelling the industry toward green and low-carbon metallurgical transformation, spurring energy-saving and green technology upgrades in China's ferroalloy industry, alongside advancements in intelligent manufacturing and resource recycling. Benefiting from the rapid growth of high-tech and high-end equipment manufacturing sectors—including new energy, photovoltaics, wind power, and artificial intelligence—the non-ferrous industry supply chain is experiencing an upturn in market conditions.

Looking ahead for 2026, China's remarkable economic resilience and vast domestic demand potential remain the solid foundation for the commodities and ferroalloy markets. In 2026, let us paint a new picture of high-quality development for the ferroalloy industry, with green as the backdrop and innovation as the engine! We look forward to your presence as we join hands to embark on a new chapter of high-quality development in the 15th Five-Year Plan period!

Who Should Attend?

- Ore Miners and Traders
- Ferroalloys Manufacturers
- Equipment & Technical Providers
- Steel Mills
- Funds Investors
- Supply Chain Insiders
- Industry Associations

Event Highlights:

1. Expert Insights: Hear from industry leaders and experts on the latest trends, market forecasts, and technological innovations.
2. Networking Opportunities: Connect with key decision-makers, suppliers, and buyers from across the globe.
3. Exhibition Showcase: Explore cutting-edge technologies, equipment, and solutions from leading providers.
4. Panel Discussions: Engage in thought-provoking discussions on sustainability, trade policies, and investment opportunities.
5. B2B Meetings: Schedule one-on-one meetings to foster partnerships and collaborations.
6. Visiting Plants: Visiting FeCr, SiMn and FeCr plants in Inner Mongolia.(before or after the Event will be arranged depends on early booking)

Event Details:

- Dates: May 20-22, 2025
- Venue: Beijing, China
- Organizer: Ferro-Alloys.com
- Registration: Early bird discounts available until March 15. Secure your spot today!

How to Register:

Visit our official website at www.ferro-alloys.com to register and learn more about the conference agenda, speakers, and sponsorship opportunities to attract more insiders attention and business expanding.

Why Beijing?

As the capital of China and a global hub for trade and innovation, Beijing offers the perfect backdrop for this international conference. Attendees will also have the chance to experience the city's rich culture and history.

Don't miss this opportunity to be part of the most influential event in the ferro-alloys industry. Join us in Beijing to gain valuable insights, expand your network, and contribute to the future of the industry.

We look forward to welcoming you to The 22nd China Ferro-Alloys International Conference!

Best Wishes and Warm Regards,

The Organizing Committee
