

The 19th China Cored Wire Industrial Supply Chain Intl Conference

The 19th China Cored Wire Industrial Supply Chain Intl Conference (CCWIC) arranged by Ferro-Alloys.com and supported by Dongdaihe Jialian Technology Co., Ltd, will be held on 16 September to 18 September, 2025 in Qinhuangdao city, China.

Conference Background

Since April 2, the US implemented global “reciprocal tariff” policy to attract manufacturing back to investment. Amid the uncertainty surrounding the unresolved US-China tariff negotiations, China's proactive macroeconomic policies led to the industrial growth rate of 6.4% for the first half of 2025 with continued growth in foreign trade and further optimization of the trade structure. Forecast for the second half of 2025, China accelerates the construction of key hydropower projects, which will impact on steel and other construction materials market. It is undeniable that the export sector for steel and raw materials are facing challenges, but more importantly, how to prevent malicious competition from the industry losses.

China's steel industry has gradually transitioned from “incremental development” to “stock optimization.” As one of the main raw materials for steel industry, the demand has shown signs of down slowing. However, from the perspective of technological innovation and market application in the cored wire industry, there is significant future for improvement in terms of technological progress, structural adjustment, green and low-carbon development, and digital and intelligent supply chain management.

In this conference, experts from technical departments of steel mills and foundry enterprises, raw material and production enterprises, scientific research institutes and industry analysts will be invited to discuss hot issues in the industry including the market situation and development trend of cored wires and raw materials, the innovation and technology application of cored wire products, the quality demand for cored wire in the steel and foundry industry, the self-discipline of cored wire industry, and the use of the internet plus for the production and sales of innovative cored wire products.

一、Conference Schedule

- 1.Date: 16 September to 18 September, 2025
- 2.Venue: Beidaihe,Qinhuangdao,China
3. Hosts:

4. Sponsors (Advertising...)

5.Supporters:

6.Provisional agenda (speakers to be announced)

September 16, 2025	Register and matching networking
14:00	Registration
15:00-18:00	Business Networking Calcium Industry ROUND TABLE Meeting
18:00-20:30	Welcome Banquet sponsored by Jialian Technology
September 17, 2025	Presentation and panel discussion
9:00-12:00	Topics Global Economic and Trade Developments in 2025 China Steel Industry Development and Outlook for the 15th Five-Year Plan Foundry Industry Situation and Outlook
12:00-14:00	Buffet Lunch
14:30-17:30	Cored Wire Product Seminar International Cored Wire Association Discussion
18:00	Customer Beach Event
September 18, 2025	Plant Visit (to be confirmed)

Presentation Topics.

(The final speech themes and sequence are subject to the announcement prior to the conference)

Development status and trend of International cored wire industry.

Will antidumping on silicon calcium production from China reduce demand?

How the Quality of steel strip effect the quality of cored wire products?

Will Indian cored wire output increase due to Indian steel expansion?

The role and application prospect of titanium-coated core wire in steelmaking.

How to improve energy saving production and equipment of solid calcium cored wire?

What are the requirements for FeSiMg in the production of core-clad wire with new materials for casting?

Calcium treatment of steel and prospect of Seamless solid calcium cored wire.

What is the consumption of Ferro Boron in the field of cored wire and what is the trends?

How to improve the market prospect and after-sales service of cored core products?

Aluminum wire consumption in steel smelting will reduce AlCa Wire demands?

What are the requirements of the casting industry for cored wire?

Register Charge and Relative term

Members	Before August 31, 2025	After September1 st , 2025
Members of Ferro-alloys.com	USD900/ person	USD1100/person
Non-Members	USD1100/ person	USD1300/person

Membership Rate (Option)	USD1500/year Standard	USD2900/year member	VIP
--------------------------	-----------------------	---------------------	-----

Register Charge Standard (Not including Room Accommodation)

If become the VIP member of www.ferro-alloys.com during the period of conference application, attend the conference for free. New Standard member can get 10% discount on register charge.

Exhibition and Supplement Advertisement

	Type	Prices
Exhibition	<input type="checkbox"/> Luxury stand (3*2) m'	USD 3,000
	<input type="checkbox"/> Standard Stand (3*2) m'	USD 2,500
	<input type="checkbox"/> Brochures Exhibition Table	USD1,000
Advertising on Conference Magazine/ Delegate Contact List	<input type="checkbox"/> Front Colored Cover	USD 3,000
	<input type="checkbox"/> Back Cover	USD 2,500
	<input type="checkbox"/> Back Inside Cover	USD1,500
	<input type="checkbox"/> Inside Color Full Page	USD1,000
Others	<input type="checkbox"/> Brochures Distribution in Delegates Bags	USD1,000
	<input type="checkbox"/> Enterprise Video Playing	USD800
	<input type="checkbox"/> Exhibition Board	USD500

Speakers opportunity and Technical Reports Distribution

Technical report contribution

We welcome scientific research persons to contribute their research Report. The theme can be cored wire technology innovation, equipment innovation, raw material innovation. And if someone like to present speech in the event, please contact us for pending seats.

We sincerely invite technical qualifications and purchasing managers of steel core production enterprises, raw material production enterprises, steel and casting production enterprises, steel core equipment manufacturers, design and research institutes to participate in this summit.

Register the conference, please contact the Conference Organizer:
